MEASUREMENTS:

.75”/2 cm (stimulation head)
7” x 1.75”/17.75 cm x 4.5 cm (overall)

CHARGING INFORMATION:

LED light will flash while charging and glow solid when fully charged. Fully charge product before use. Battery life depends on frequency and speed of use. We recommend fully charging your product once every 6 months. Complete charge time: 2 hours; Run time on high: 120 minutes; Run time on low: 140 minutes.

OPERATING INSTRUCTIONS:

1. This item comes with a travel lock feature. To unlock, press and hold the power button for 3 seconds. A white LED will indicate the product is activated.
2. To turn on suction, press the S button once.
3. To stop suction, press the S button again. The pressure level is now recorded and can be used in Smart Pleasure Mode.
4. To incrementally release the pressure, tap the air release button.
5. To release all the pressure, press and hold the air release button.
6. To enter Smart Pleasure Mode, make sure your desired pressure level is recorded (see step 3) and then press the M button.
7. Continue to press the M button until the desired function is reached.
8. To stop Smart Pleasure Mode at any time, press the air release button once.
9. You may switch to manual suction at any time by pressing the S button.
10. To turn on vibrations at any time, press the power button once.
11. Continue to press the power button until the desired function is reached.
12. To turn off vibrations, double click the power button.
13. To turn off product, repeat step 1. All suction will automatically release.
14. If any air leakage is detected during Smart Pleasure Mode, the item will automatically re-pump to maintain pressure. Small incremental suctions are normal.
