ELEVATE YOUR VIBE

TRIPLE ACTION, LAYERED STIMULATION

IF ORAL SEX is your kryptonite, you need to drop everything and get your hands on Trinitii. Living up to its name, Trinitii combines three independently-controlled sensations that mimic oral play. This clit stim's wide silicone mouth encompasses both the clitoris and surrounding areas for a less direct and abrasive sensation. Trinitii's gentle, yet firm, intermittent suction can be layered with the toy's 4 flickering tongue speeds and 15 lusty vibrations for additional customization during clitoral or nipple play
